

# Life-Force® Micro-Force™ Home Pack

Features species of beneficial bacteria and species of soil-friendly fungi.

Microbial inocula have rapidly become an exciting feature of biological agriculture. Life-Force® Micro-Force™ is a new product for the home gardener. Life-Force® Micro-Force™ is a proven performer in this arena and includes species of beneficial soil bacteria and species of 'friendly' fungi. The bacterial species make nutrients available and supply natural nitrogen. They improve soil structure and moisture retention. The fungal species convert plant residues to humus and feature a fungus species to control pathogenic fungi. Several of the Micro-Force™ microbes exude plant growth promotants and can provide a profound increase in plant vitality and yield.

## Benefits

- Promotes plant growth.
- Improves soil structure.
- Nitrogen-fixation.
- Rapid humus production.
- Increases phosphorus availability.
- Improves nutrient recycling.

## PACKAGING

20 g Micro-Force™ Microbes™  
300 mL Life-Force® Liquid  
Microbe Food

\*See note in miscellaneous section  
Product Code: HGLFMF

**Life-Force®**

# Life-Force® Micro-Force™ Home Pack

## Application Rates

- Add 15 L of water to a bucket and bubble for at least one hour to remove chlorine. Then add:
  - 10 g Micro-Force Microbes™ (half of the labelled pack provided)
  - 150 mL of the liquid Life-Force® Liquid Microbe Food™ (half of the labelled pack provided)
- Continue to aerate and brew for 24 hours.
- Dilute this brewed concentrate at a rate of 100 mL to 1 L water and apply to the soil and foliage.
- These brews can be repeated every four to six weeks.

**Note:** The brewed solution must be used within three days, or it will become unstable and of no value.

## Miscellaneous

- The fibre remaining in the bottom of the bucket, after the brewing process is completed, can be flushed down into a septic tank to activate the system, poured into a dam or pond, or it can be applied to the garden.
- **Note:** Microbe brewing kit (such as the Life-Force® Microbe Brewer) will be required to brew your Micro-Force Microbes™.
- Gloves and breathing mask should be worn at all times when handling microbial products.
